

November 30, 2022

Dear OSSD Community,

Repairs of the RUHS and RTCC heating system remain on track. RTCC students returned to school this past Monday and RUHS students should be returning on December 5th.

The Central Office will be undergoing major repairs for the next few months requiring the central office team to relocate while that work is underway. Beginning December 5th, and until the repairs are complete (April estimate), the central office will be working out of the Randolph Elementary School.

- Email addresses will not change
- Phone numbers will remain the same

Lastly, the locker room renovations that have been in the works since September 27th will begin this month concurrently with the repairs at central office. All four locker rooms (two high school and two middle school) will receive additional private changing areas. The district had originally planned on four new changing areas per locker room, but the larger size of the ADA (Americans with Disabilities ACT) spaces has reduced that number to three per locker room.

Sincerely,

Layne Millington

OSSD Superintendent
